Make your REACH 2018
inventory now!

Comply with
REACH 2018 in cost
efficient way

Keep more
substances on
the market:
spread costs over
2016-2018

All-included
package

Languages:
Dutch, English,
French, German,
Italian, Russian

Orphan substances are those substances that have no or limited data and no existing organization working on them.

ROSC provides potential registrants with the unique opportunity to register your "Orphan" substance (organic and inorganic) under one overarching consortium.

ROSC is an initiative of three renowned and experienced service providers* and aims to deliver an all-included package for your REACH 2018 Orphan substances.

Services we offer include:

- Consortium management
- Dossier preparation (including tox/ecotox)
- Letter of Access
- Cost efficient tools

* The ROSC consortium is a strategic partnership of ARCHE bvba, CHEMSERVICE GMBH and KV Consulting Service bvba.

**More than 20 years
of experience**

Proven track record

**Unique combination of
well-recognized experts
in their field**
