

REACH Orphan Substances Consortium

ROSC

SUBSTANCE IDENTIFICATION PROFILE

Lead Registrant	BCH Brühl	Availability LoA	second quarter 2018
Substance name	DETX	CAS nr	82799-44-8
Chemical formula	C17H16OS	EC (EINECS or ELINCS) nr	280-041-0
Composition type	mono constituent	Molecular weight	268,38 g/mol
Melting point	71-74°C		

REACH Registration tonnage	10-100 T
----------------------------	----------

Physical form	powder	Colour	yellow
Relative density	$D_4^{20} = 1.27$		
Purity	$\geq 99\% \leq 100\%$		
Impurities for which the individual concentration does not exceed 0.1% and that are not relevant for classification and/or PBT assessment.	$\leq 1\%$		

Classification and labeling information: no classification or labeling needed.

DATE: Feb 2018
